**MY ALIEN**

I wonder about aliens  
And what would happen if they came,  
Down to visit planet Earth.  
Do you think we'd look the same?  
Would they have hands and toes like us?  
Or the biggest furry paws?  
Perhaps neither, perhaps both...  
Perhaps GINORMOUS purple claws?  
Do you think the aliens would talk like us?  
What would they like to do?  
Perhaps they'd want to spend the day at a local zoo?  
Do you think you'd ever meet one?  
What on Earth do you think they'd do?

**My Alien is called...**

**When they visit we will go...**
